HELPED TO BLOW UP INDEPENDENCE DEPOT

Deported Colorado Miner Under Arrest in Topeka Is Alleged to Have Made Full Confession Implicating Others in the Plot--Vindicator Plot Also Exposed.

[illegible] Robert Romain, [illegible] Colorado, [illegible] arrested here on [illegible] that he helped in the Vindicator mine dynamiting in Colorado last fall and in blowing up the depot platform in Independence, Colo., last June.

Romain said that he was one of the strikers at Victor and that he helped to arrange the dynamite which caused the death of so many of the non-union miners. He gave the names of the men who were with him and told in detail how the work was done.

County Attorney Lungren and Sheriff Lucas tonight admitted that Romain made the confession and stated that he had something to say about the strike in Colorado, but would not tell his story because they feared that his confession, if public, would lead to the escape of many of the other men who were implicated.

Romain said the dynamite was laid under the depot platform at Independence. He told how the dynamite was [illegible] with a [illegible] wire to a fence [illegible] The Colorado authorities were [illegible] with and Romain will [illegible] to Victor.

ROMAIN ARRESTED ON SHERIFF BELL'S ORDERS

Special to the Gazette.

Cripple Creek, Sept. 9.—1:30 a. m.—Robert Romain was arrested at Topeka on orders of Sheriff Bell some time ago and the Topeka authorities have been sweating him.

He has made a confession but Sheriff Bell this morning declines to give out any details of the confession. He is an ex-convict and worked in this district from the commencement of the strike. The report from Topeka is understood here to be correct in substance.

Discrepancies in the details are attributed to the fact that the authorities at Topeka would not give out the text of the confession and that Romain's story has naturally been misquoted, on minor points by persons who are not familiar with the circumstances of the explosion.

Romain was waiting in the room with others when the train pulled up to the station and saw two of his friends among the guards. He managed to get them away and started to tell them to leave the platform when one of the men who was with him struck him on the head with a revolver. The dynamite charge was exploded a few minutes afterwards and the friends of Romain were killed or injured.

In his description of the laying of the dynamite at the Vindicator mine, he went into details about the different shifts and told all about how the wires were laid.

Romain pleaded guilty to the charge of burglary today but was not sentenced. The Colorado authorities were [illegible] with a requisition [illegible] and Romain will [illegible] to Victor.

BUTCHERS STRIKE IS DECLARED OFF

Chicago Stock Yards Workers Will Take Such Places as They Can Get Under the Old Conditions.

Chicago, Sept. 9.—The strike of the butcher workmen, which has demoralized the meat industry throughout the country for the past two months, was officially declared off tonight by President Michael Donnelly of the Amalgamated Meat Cutters and Butchers Workmen of America.

This morning Mr. Donnelly telegraphed the members of the national executive committee asking each to send to an announcement of an end of the struggle, and tonight having received favorable answers from all he declared that the strike of his organization would end at midnight.

Admits Total Defeat.

The strike of the members of the affiliated union of the stockyards who quit work in sympathy with the butchers will officially be called off tomorrow morning at a meeting of the conference board of the Allied Trades. This was decided upon at a meeting of the central body of the Allied Trades held tonight. The general body was at first in favor of continuing the strike, but Mr. Donnelly, who was present, announced that the men were defeated and that in order to save the union from being entirely disrupted he would order his men to return to work in the packing houses no matter what course might be taken by other unions. As the other unions had no grievance but had gone on strike to aid the butchers there was nothing left for them but to follow the lead of Mr. Donnelly, and they, too, decided to call off the strike as far as they were concerned.

Many Places Now Filled.

When the packers have notified tonight that it [illegible] to end the strike they announced that they would take places as fast as possible to the skilled men, but it was stated at the same time that many of these men would be unable to secure their old places as in many cases the work was being performed in a satisfactory manner by men who had been secured since the commencement of the strike. It is expected that the majority of the unskilled will be unable to secure their places again. It was the question of a wage scale for this class of men that brought about the strike, the packers refusing to give an agreement with any class other than skilled workmen.

Cost of the Strike.

During the strike approximately 55,000 persons have been involved in the struggle, which is estimated to have cost the men about $5,000,000 in wages, as against an estimated loss of $7,500,000 to the packers in loss of business and in increased expenses.

The [illegible] at Armour, Morris & Co. in Chicago during the strike was 25,000 and the total in the country outside of this city is estimated to be about the same.

The original cause of the strike was a demand by the Butchers union that the packers pay to the unskilled workmen 20c cents an hour. The packers refused to sign an agreement but offered to arbitrate the question. This was accepted, the strikers agreeing to return to work pending the decision of the arbitrators. The men, however, were dissatisfied with the manner in which they were being put to work, and declared that they would not return to work unless all the men were given their old places in one day's time. The packers declaring that this was physically impossible, the men went on strike for the second time.

The men now return to work under conditions that existed before the strike.

WILL BE A HEAVY TEAM

SEVEN MEMBERS OF LAST YEAR'S SQUAD HAVE RETURNED TO SCHOOL AND OTHERS WILL APPEAR NEXT WEEK

The High school athletes have started in early practicing for the football season and last night there were 15 men out in suits at Washburn field, engaged in the preliminary work. A meeting will be held in a few days and coach Graham attend the among the boys of the school in the game. A manager will be elected shortly to work up the schedule and will be elected shortly to work up the idea of a southern league and represent the school at the state meeting which is to be held in Denver inside of the next 10 days.

Seven of last year's team have been out to practice, and at this time it looks as if a heavier team will be put out than last year. A second team is being figured on this year and it is probable that enough material will develop to hold two teams running through the season.

Principal J. H. Richards will be out to coach the team a night or two, and under him systematic training will be conducted and a strong team developed. Under Captain Ward Randolph, the following men are out practicing: Wynn Weller, Will Stone, Fred Palmer, Harold Draper, Dolph Hackett, Earl Murphy, William Cort, Paul McBroom, Glenn Shaw, Fred Herbert, Joe Morrison, Herbert Roe, Marcus [illegible] and Schofield.

DODGE WINS CHAMPIONSHIP

COLORADO SPRINGS MAN DEFEATS WYOMING TENNIS EXPERT BY SENSATIONALLY [illegible]

[illegible] Dodge of Colorado Springs won the tennis championship of the Rocky mountain region this afternoon from S. R. Neil, of Wyoming. The score was 6-3, 6-2. The Wyoming man's strong work at the net was neutralized by Dodge's exceptionally fine placing. He forced the game into the back of the courts, where he won on his superior volleying and his great short driving from near the net. The Wyoming man was deposed of with such ease that the match was robbed of the greater part of its interest.

In the doubles the Graham brothers defeated Bannister and Cosby in straight sets, the victory being also easy.

Tomorrow will be played the finals in the doubles, when Graham brothers will meet Harker and Neel. The game promises to be the best contest of the whole tournament.

The consolation in the singles was also completed today, Cunningham winning from Kenyon.

TWO WORLD'S RECORDS AT NEW YORK STATE FAIR

Syracuse, N. Y., Sept. 6.—Two world's records were broken at the New York state fair here this afternoon. Miss Phelps, driving the roan gelding Albert 2:08¾ a mile in 2:06½, a world's record for a woman driver.

The [illegible] was Paul D. Kelly, owned by U. G. Smith, of Glens Falls, and a mile in 1:30¾, equaling the fastest time ever made by a pacing pacer and beating the world's record of 2:32, which has stood since 1881.

INCREASE OF HALF MILLION IN DEPOSITS

The banks of Colorado Springs have more money on deposit now by nearly $500,000 than they had three months ago. The reports now being made out show that there is on deposit in these institutions at this time approximately $3,333,300, a gain of nearly $500,000 over the deposits of June 9 last. The tourist business and the improved Cripple Creek conditions are said to be responsible for the increase.

TRUSTEES SPENT DAY AT HENRY FORD FEAST.

The trustees of the local Presbyterian church spent yesterday at the Ivy Ford eating establishment, under open air conditions, and were so delighted and well satisfied that they did not feel like transacting any business last night. They will recommend that [illegible] will make up the [illegible] during the [illegible] of coming into the city.

[illegible] of all recently built apartment houses are simply a series of well-lighted cells, with a bowling alley running down the middle. I have been in scores of these buildings and have rarely run across a piano. In such old neighborhoods as Washington square, where the old-fashioned brown stone and red brick houses still persist, nearly every family has a piano. The average [illegible] dweller will tell you that his agony [illegible] is in store because there is no room for it in the house. Others say that in the summer it is not possible to [illegible] to neighbors to play at night. The windows are always open and invariably there is a complaint against playing.—Pittsburg Dispatch.

A NEW GAME LAW.

With the signature of Governor Odell the Radford bill for the preservation of black bear in New York state became a law. This bill is unique [illegible] as it is the first bill ever framed in this state giving bear [illegible] the black bear, and leaving them [illegible] out of the class of [illegible] it operates [illegible] as the [illegible] with a penalty [illegible] the law.

There is another provision in this bill making it a part of the law that a special count shall be kept of all the bear killed. This is the first time that a protective game law has ever contained that provision. The reports which are published from time to time of the number of deer killed in the Adirondacks, for instance, are strictly unofficial.

The new bill prohibits the killing or taking of black bear between July 1 and September 30.—From "From the Field of Fact" in Fox's Dark Secrets for December.

WELCOMED THE VISITATION.

President D. R. Francis of the St. Louis exposition laughed heartily at some of the stories told him during ... Democratic convention and recompensed his guests with the following.

"A preacher has learned from the local paper that the coming winter would abound in socials, receptions, dances and card parties. Clubs were being organized and balls engaged, and the requirements for a season of gayety were very alluring. On the Sabbath following the publication of this item a scathing rebuke on the frivolities of life was delivered from the pulpit. Some of the members went home indignant. Said Mrs. Jones to her husband:

"The preacher denounced our plans and declared that the devil and all his angels would make the homes of this ... city ... abiding place for the coming months, if the gay ... planned were indulged in."

SPRINGS MEN BUY THE HENRY ADNEY

Manager McDonald, Representing Messrs. Lennox and Giddings, Takes Possession. Price Said to Be $100,000.

Special to the Gazette.

Cripple Creek, Sept. 8.—It was learned on reliable authority today that the Henry Adney property on Beacon hill has been sold to Lennox and Giddings of Colorado Springs. Manager McDonald of the Gold King and strong mining men. The price said to have been paid is slightly over $100,000.

Several months ago the Henry Adney claim, which consists of about 10 acres in the most productive part of Beacon hill, was bonded and leased to M. B. Burke of this city by H. S. Gruesbeck and George Riddle with a graded bond ranging from $30,000 to $40,000. The bond and lease was approved yesterday with the county clerk and Burke in turn deeded the bond and lease to L. L. Adney of Colorado Springs, as trustee.

While Mr. Burke tonight denied the story that a sale had taken place, it was confirmed by both Mr. Sam McDonald, manager of the Lennox and Giddings properties in the district, and Frank May, superintendent of one of the properties.

Mr. McDonald will take charge of the property and Mr. Gruesbeck did so yesterday. Thomas Smith, founder of the Gold King, is superintendent of the new holdings. The bond taken up by Mr. Burke on the property was for $40,000.

The Henry Adney is one of the latest producers to be opened in the district. The extension of a rich shoot opened in the C. K. & N. and Old Gold properties runs into the Henry Adney holdings.

While the story is prevalent that a sale has been made, yet it is a well known fact that the price reported is probably to be taken out of the dividends in the course of a very few months.

Mr. Lennox, one of the reported purchasers, was one of the early supporters of the Cripple Creek district and is responsible for making the district what it is. It was his faith in the camp that developed the Gold King shaft to 1,000 feet, the first 1,000-foot shaft opened in the camp.

ENCOURAGING OUTLOOK IN NEW HAVEN PROPERTY.

Special to the Gazette.

Cripple Creek, Sept. 8.—Drifts opened on the New Haven property are proving the work of development and operations are the greatest and most extensive ever carried on in the history of the property. It is safe to say that within a few weeks a shipment of ore will be made.

MOUNTAIN BOY COMPANY PUSHING DEVELOPMENT.

Special to the Gazette.

Cripple Creek, Sept. 8.—The Mountain Boy company, operating the Mountain Boy on Beacon hill, is now pushing the work of development at a depth of 400 feet, where a crosscut is being driven in order to open up the veins encountered in the 150-foot level where the showing was extremely bright.

The Mountain Boy property will be cut at a depth of 1,000 feet by the Ophelia tunnel that is now nearing their line and with the accomplishment the owners will probably confine most of their work to the tunnel level, where, it is claimed, they will have an immense stoping proposition.

GLENN BROTHERS HAVE FRAME ON THE MITCHELL

Special to the Gazette.

Cripple Creek, Sept. 8.—The Glenn brothers have secured a lease on the Mitchell claim on the northwest slope of Bull hill and have commenced operations. It will be remembered by many that these lessees took out a large sized fortune from the Pinnacle several years ago and the boys are of the opinion that they will encounter the Pinnacle ore shoot in the Mitchell property.

The boys are now prospecting the ground to determine where they will commence work. The shaft, which has been sunk to a depth of 150 feet, will probably be the first point of operations and in all probability they will sink another fifty or two and push development from that depth.

LEURY ANNIE VALUES FROM THE LADY STITH CLAIM.

Special to the Gazette.

Cripple Creek, Sept. 8.—George L. Kennet, who is operating under lease the Lady Stith, ahead by the Stratton estate and located on Globe hill, sent out a carload of ore during the month of August. The present month they expect to nearly double that tonnage.

The lessees are breaking ore at a depth of 40 feet, where in a short cross cut they encountered a 6-foot gash vein, returning values of an ounce to an ounce and a half to the ton, the vein ... values.

GOOD PROSPECTS FROM THE CLIMAX CLAIM.

Special to the Gazette.

Cripple Creek, Sept. 8.—The development in progress through the Climax claim of the Little Puck company, on Squaw mountain, are very encouraging at this time. The lessees are getting out regular shipments of a good grade of ore and have doubled their ore house capacity in the last few days.

MOULTON HAS SECURED LEASE ON LAFAYETTE.

Special to the Gazette.

Cripple Creek, Sept. 8.—Moulton and associates this morning obtained a lease on the Lafayette property for a period of two years. The new lessees will commence development work at once.

JUDGE RILEY IS VERY ILL

A PICTURESQUE CHARACTER AT THE NATIONAL CAPITAL ONCE CONSUL TO ZANZIBAR. SHOT A QUEEN.

Washington, Sept. 8—Judge William G. Riley, one of the most picturesque of the [illegible] characters of Washington, noted as the man who peppered the queen of Zanzibar with birdshot because she bathed in front of his consulate, is in a serious condition at the Washington Asylum hospital as the result of a nervous collapse.

Judge Riley was moved to the hospital from the Elliott house more than a week ago. He had been complaining for an hour and it was at first believed that the [illegible] of malaria. He is more than 71 years old, has led an active life and his condition is now regarded as critical. Judge Riley has been a familiar figure along Pennsylvania avenue ever since he left the consular service.

Since then he has been taking life easy and has spent much time in Washington hotel lobbies. Many have believed that he has throughout this time been open to engagements in the consular service. He has been recently expecting some money, amounting, he said, to about $20,000, which he said was being gotten up for him through the legal services of Senator Daniel, of Virginia.

Judge Riley is one of the best-known of the informal representatives of Washington. He has spent much time in the corridors of the capitol and where there was life in the center of the city. He always referred to himself as "Judge William G. Riley of Accomac county, Virginia—by God!"

Judge Riley has represented the United States in the consular service both at Zanzibar and Puerto Cabello. He was appointed to the African mission by President Grant. During his incumbency there occurred an incident which is the basis of the most famous story told on Judge Riley. The judge, believing the honor of his country was at stake, fired his trusty shooting gun at a number of inhabitants who were bathing naked in a stream in front of his official residence.

It turned out that the queen of Zanzibar and her faithful subjects were taking a Saturday afternoon dip and he filled them with birdshot. Great inquiry prevailed, and it was not until the judge's chivalrous nature asserted itself that order was restored and diplomatic relations re-established. He visited the palace and found the queen lying on a settee and her legs and ankles were literally full of shot. Judge Riley, like a true Virginian of Irish extraction, at once made a profuse apology in his characteristic manner and "soothed the savage breasts." The queen limped around on crutches for an entire season.

ROOSEVELT MONEY ON STATE GOES BEGGING

[illegible] Taken in Wall Street —Even Money.

New York, Sept. 8—The sum of $[illegible] with an agreement to raise it to $[illegible] was born over in a prominent [illegible] business man to support Roosevelt for president. [illegible] in every New York [illegible] to-day [illegible] of the Democratic [illegible] of [illegible] of success. [illegible] that the Democratic [illegible] will carry New York. [illegible] was said that [illegible] New York [illegible] was [illegible] that New York will be carried by Roosevelt. It was stipulated that the money should not be published.

A new Parker arrangement was made with R. F. Wilde, a broker at 36 Broad street, to handle the money, with the stipulation that [illegible] should not be published.

THROWING MUD AT ROOSEVELT

JUDGE PARKER HIMSELF MANFULLY DECLARES AGAINST SUCH METHODS, HIS CLERKS SHIP DEFAMATORY STUFF.

New York, Sept. 8.—Throwing mud at President Roosevelt and then officially decrying it in the same breath is the policy of those actively in charge of the Parker campaign. The tide is out to resort to abuse of the president and it is being played to the limit.

"Anything to win" is the motto written on the walls of the inner sanctuary of the Democratic national headquarters. While David B. Hill throwing mud from one end of New York state to the other in the bitterness against President Roosevelt, National Chairman Taggart announces in his stand-pat way that he is emphatically opposed to resorting to personal attacks on candidates.

Still, spicier after-cartoon of literature, filled with abuse in the shape of garbled statements and malicious falsehoods, is being shipped daily from Democratic headquarters to be scattered broadcast over the country. Mr. Taggart sits in the same building a few feet distant from the shipping room and declares with great impressiveness that mud-slinging in campaign documents is wrong in principle and unworthy of any great party.

Democratic orators the country over are expected to take their cue from the speeches of Hill at Deposit, on August 3, and at Whitney's Point, on August 11, from Senator Bailey's speech in Brooklyn, on August 12, and from John Sharpe Williams' speech at the meeting to notify Henry Gassaway Davis of his nomination for vice president. The headquarters literary bureau is attending to the rest. Lest anything in the line of abuse and misrepresentation may be overlooked by Hill, the literary bureau, which is on the first floor below Chairman Taggart's private office, is working overtime shipping thousands of copies of a pamphlet entitled "What Roosevelt Says," a title contingent quite in keeping with the Hill school of politics.

A visit to Democratic national headquarters and a chat with Chairman Taggart on the subject of mud-slinging in politics at this time is needed to show how the Parker managers are doing things. William F. Sheehan is there as Judge Parker's personal representative, and, in fact, as the real promoter of the Parker campaign. August Belmont has his desk there and on it is a handy telephone with wires running straight through to Wall Street. Taggart is the one who extends the glad hand to those who are successful in breaking through the cordon of secretaries and doorkeepers on guard to steer off the undesirable or otherwise unwelcome visitor. Once you arrive in Taggart's private office you are given the glad hand and a cheery "how'do do." After that it all depends upon the nature of your business.
